JESÚS N. PINTO-LEDEZMA

Department of Ecology, Evolution and Behavior • University of Minnesota • St Paul, MN 55108
jpintole@umn.edu • https://jesusnpl.github.io • @JesusNPL

RESEARCH INTERESTS

I am an evolutionary and quantitative ecologist whose work focuses on developing a deeper understanding of species coexistence and patterns of diversity across spatial and temporal scales, and the underlying processes that drive, maintain and alter such patterns. I have a passion for science and for diversity and inclusion in education and research.

EDUCATION

Ph.D., Ecology and Evolution 2013-2017
Universidade Federal de Goiás - Goiânia Goiás, Brazil
Dissertation: *Origin and assembly of Furnariides assemblages across space and time: the role of historical processes*
Advisor: José Alexandre Felizola Diniz-Filho

M.S., Wildlife Management 2006-2009
Universidad Nacional de Córdoba - Córdoba Córdoba, Argentina
Dissertation: *Determination of special protected areas for the conservation of migratory birds in the Mar Chiquita Reserve*
Advisors: Adrian H. Farmer and Enrique H. Bucher

B.A., Biology 2001-2005
Universidad Autónoma Gabriel René Moreno Santa Cruz, Bolivia
Distinction in All Subjects. *Cum Laude Honors*
Advisor: Teresa Ruiz de Centurión

PROFESSIONAL APPOINTMENTS

UMN Presidential Fellow 2022-present
University of Minnesota, Department of Ecology Evolution and Behavior St Paul, MN, USA

Research Scientist 2020-2022
University of Minnesota, Department of Ecology Evolution and Behavior St Paul, MN, USA

Grand Challenge in Biology Postdoctoral Fellow 2017-2020
University of Minnesota, Department of Ecology Evolution and Behavior St Paul, MN, USA

Research Associate 2009-present
Museo de Historia Natural Noel Kempff Mercado Santa Cruz, Bolivia
Ad Honorem

Guest Lecturer 2012-2013
Carrera de Biología, Universidad Autónoma Gabriel René Moreno Santa Cruz, Bolivia

Visiting Researcher 2010-2011
Centro de Pesquisas do Pantanal, Universidade Federal de Mato Grosso Cuiabá, Bolivia

Intern 2003-2006
Museo de Historia Natural Noel Kempff Mercado Santa Cruz, Brazil

Bolivian Military Service 2000
Air Force Santa Cruz, Bolivia

AWARDS AND FELLOWSHIPS

President's Postdoctoral Fellowship Program, University of Minnesota, College of Biological Sciences 2022-present

AAAS/Science Membership Award, the American Association for the Advancement of Science Program for Excellence in Science 2020-present

Sigma Xi, Membership, Sigma Xi (ΣΞ) the Scientific Research Honor Society 2021

Grand Challenges in Biology Postdoctoral Program, University of Minnesota, College of Biological Sciences 2017-2020

CAPES PhD fellowship, Coordination for the Improvement of Higher Education Personnel, Brazil 2015-2017

OEA-CGUB Doctoral Scholarship, Organization of American States (OAS) and the Coimbra Group of Brazilian Universities (GCUB), Brazil 2014-2015

Master's Program in Wildlife Management, US Wildlife Service, Universidad Nacional de Córdoba, Córdoba, Argetina 2006-2008

ISSLR Membership and Travel Award, International Society of Salt Lake Research 2011

SWS Membership Award, Society of Wetlands Scientists 2010-2013

SCB Membership Award, Society for Conservation Biology - A global community of conservation professionals 2007-2009

Best Student Award for the Biology Major, Universidad Autónoma Gabriel René Moreno, Santa Cruz de la Sierra, Bolivia 2005

RESEARCH ACTIVITIES

FEDERAL GRANTS: ***Total awarded USD 5,886,664***

NASA ROSES Biodiversity: Mapping changes in forest diversity and disease in North American temperate forests. 2021-2024
Role: Co-Investigator
Cavender-Bares, Jeannine (PI, UMN), Townsend, Philip (co-PI, UW). — **Award: USD 481,933.**

National Science Foundation, MSA: Integrating biodiversity observations with airborne and satellite data to predict shifts in assemblage diversity and composition under global change. 2020-2023
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI, UMN), Cavender-Bares, Jeannine (co-PI, UMN). — **Award: USD 299,375.**

National Science Foundation, BII Implementation: The causes and consequences of plant biodiversity across scales in a rapidly changing world. 2020-2025
Role: Co-Investigator
Cavender-Bares, Jeannine (PI, UMN), Townsend, Philip (co-PI, UW), Reich, Peter (co-PI, UMN), José E. Meireles (co-PI, UMaine), Amy Trowbridge (co-PI, UW). More information at: `https://www.spectralbiology.org`. — **Total award: USD 12,5000,000.** Awarded to date: USD 5,105,356.

NON-FEDERAL GRANTS: ***Total awarded USD 195,508***

Cedar Creek Ecological Synthesis Working Groups: Evolutionary imprints on the species responses to the varying environment. 2023-2024
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI, UMN), Cavender-Bares, Jeannine (co-PI, UMN), Borer, Elizabeth (co-PI, UMN). — **Award: USD 7,000.**

University of Minnesota, President's Postdoctoral Fellowship Program: Dispersal as a bridge between ecology, evolution, and behavior. 2022-2024
Role: Presidential Fellow
— **Award: USD 162,281.**

College of Biological Sciences, UMN, Grand Challenges in Biology Postdoctoral Fellowship: Evaluating the roles of ecological and historical processes in biological invasions. 2017-2020
Role: Postdoctoral Fellow
— **Award: USD 157,500.**

Academia Nacional de Ciencias de Bolivia, Capitulo Santa Cruz: Amphibians as a model of biological control in agricultural areas of central Santa Cruz, Bolivia. **2016-2017**
Role: Co-Principal Investigator
Pinto, Marco Aurelio (PI), **Pinto-Ledezma, Jesús N.** (Co-PI). — **Award: USD 1,500.**

Rufford Foundation: Rescuing the biodiversity of the Cerro Mutún: a basis for generation the conservation measures for Bolivian biodiversity. 2016-2017
Role: Co-Principal Investigator
Villarroel, Daniel (PI), **Pinto-Ledezma, Jesus N.** (Co-PI). — **Award: USD 7,674.**

Rufford Foundation: Long-Term Effects of Habitat Modification on Amphibians in the Yungas and Inter-Andean Dry Valley Ecoregions. 2013-2014
Role: Co-Principal Investigator
Sosa, Ronald (PI), **Pinto-Ledezma, Jesús N.** (Co-PI). — **Award: USD 6,568.**

Rufford Foundation: The Hyacinth Macaw Program: Population Status and Conservation of the Hyacinth Macaw. 2013-2014
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI). — **Award: USD 7,168.**

Academia Nacional de Ciencias de Bolivia, Capítulo Santa Cruz: Analysis of effect of the land use change on amphibian communities in the Mutun region. 2012-2013
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI). — **Award: USD 1,500.**

Academia Nacional de Ciencias de Bolivia, Capítulo Santa Cruz: Areas for the conservation of the Hyacinth macaw. 2011-2012
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI). — **Award: USD 1,500.**

Rufford Foundation: Testing a Habitat Model for the Hyacinth macaw (*Anodorhynchus hyacinthinus*) and Mapping HS for the Species in Protected Areas in Bolivian Pantanal. 2009-2011
Role: Principal Investigator
Pinto-Ledezma, Jesús N. (PI). — **Award: USD 5,098.**

PUBLICATIONS

As of October 2023, I have published 29 articles in indexed journals, 15 articles in other peer-reviewed journals (non-indexed journals), 4 peer-reviewed book chapters and 4 non peer-reviewed book chapters.

†*Equal contribution*
**Undergraduate student*

29. **J.N. Pinto-Ledezma**, S. Díaz, B.S. Halpern, C. Khoury and J. Cavender-Bares. (**Accepted**). No branch left behind: tracking terrestrial biodiversity from a phylogenetic completeness perspective. *Frontiers in Ecology and the Environment.*

28. Guzmán, J.A., **J.N. Pinto-Ledezma**, D. Frantz, P.A Townsend, J. Juzwik and J. Cavender-Bares. (**2023**). Mapping oak wilt disease from space using land surface phenology. *Remote Sensing of Environment, 298: 113794.*

27. Moulatlet, G.M., B. Kusumoto, **J.N. Pinto-Ledezma**, T. Shiono, Y. Kubota and F. Villalobos. (**2023**). Global patterns of phylogenetic beta-diversity components in angiosperms. *Journal of Vegetation Science, 34(4): e13203.*

26. Pellegrini, A.F., L. Anderegg, **J.N. Pinto-Ledezma**, J. Cavender-Bares, S.E. Hobbie and P.B. Reich. (**2023**). Consistent physiological, ecological, and evolutionary effects of fire regime on conservative leaf economics strategies plant communities. *Ecology Letters, 26(4): 597–608.*

25. Meltesen, K.M., E.T. Whiting, **J.N. Pinto-Ledezma**, T.S. Cicak and D.L. Fox. (**2023**). Deconstructing the latitudinal diversity gradient of North American mammals by nominal order. *Journal of Mammalogy, 104(4): 707-722.*

24. Souza, K., D. Fortunato, L. Jardim, L.C. Terribile, M. Lima-Ribeiro, C. Mariano, **J.N. Pinto-Ledezma**, L. M. Bini, R. Loyola, R. Dobrovolski, T.F.L.V.B. Rangel, I.F. Machado, T. Rocha, M.C. Batista, M.L. Lorini, M.M. Vale, C.A. Navas, N.M. Maciel, F. Villalobos, M.A. Olalla-Tarraga, J.F.M. Rodrigues, S. Gouveia and J.A.F. Diniz-Filho. (**2023**). Evolutionary rescue and geographic range shifts under climate change for global amphibians. *Frontiers in Ecology and Evolution, 11: 1038018.*

23. Rueda-Cediel, P., R. Brain, N. Galic, **J.N. Pinto-Ledezma**, A. Rico and V. Forbes. (**2023**). Using life-history trait variation to inform ecological risk assessments for threatened and endangered plant species. *Integrated Environmental Assessment and Management, 19(10): 213–223.*

22. Velasco†, J.A. and **J.N. Pinto-Ledezma†**. (**2022**). Mapping diversification metrics in macroecological studies: prospects and challenges. *Frontiers in Ecology and Evolution, 10: 951271.*

21. Vargas, G., N. Kunert, W.M. Hammond, Z.C. Berry, L.K. Werden, C.M. Smith-Martin, B.T. Wolfe, L. Toro, A. Mondragón-Botero, **J.N. Pinto-Ledezma**, N.B. Schwartz, M. Uriarte, L. Sack, K.J. Anderson-Teixeira and J.S. Powers. (**2022**). Leaf habit affects the distribution of drought sensitivity but not water transport efficiency in the tropics. *Ecology Letters, 25(12): 2637–2650.*

20. Arango, A., **J.N. Pinto-Ledezma**, O. Soto-Rojas, A.M. Lindsay, Ch.D. Mendenhall and F. Villalobos. (**2022**). Hand-Wing Index as a surrogate for dispersal: the case of the Emberizoidea radiation. *Biological Journal of the Linnean Society, 137(1): 137–144.*

19. Fontes, C., **J.N. Pinto-Ledezma**, A.L. Jacobsen, R.B. Pratt and J. Cavender-Bares. (**2022**). Adaptive variation among oaks in wood anatomical properties is shaped by climate of origin and shows limited plasticity across environments. *Functional Ecology, 36(2): 326-340.*

TEACHING AND ADVISING

CORE TEACHING:

University of Minnesota: Department of Ecology, Evolution & Evolution
EEB 3534: **Biodiversity Science** (Instructor of record) Spring 2019-2023
EEB 5534: **Biodiversity Science** (Instructor of record) Spring 2019-2023
Lab material at: `https://jesusnpl.github.io/teaching/`

Universidad Autónoma Gabriel René Moreno: Carrera de Biología
ZOO 344: **Vertebrate Zoology** (Guest Lecturer) Spring 2012, 2013
Landscape Ecology (Guest Lecturer) Spring 2015, 2017
Master en Manejo de Recursos Naturales y Medio Ambiente

ADDITIONAL TEACHING:

University of Minnesota: Department of Biology Teaching & Learning - The Nature of Life (NOL @ Itasca)
Introduction to Programming Using R (Instructor) July, 2023
Module material at: `git@github.com:jesusNPL/NOL.git`

University of Minnesota: Department of Ecology, Evolution & Behavior
Evolutionary Ecology (Guest Lecturer) May, 2023
Ecology (EEB 3407/5407) May Term 2023

University of Minnesota: Department of Ecology, Evolution & Behavior
NextGen species distribution models (Lecturer) May, 2022
Lab material at: `git@github.com:jesusNPL/NextGenSDM.git`

University of Minnesota: Department of Fisheries, Wildlie and Conservation Biology
Introduction to patterns of biodiversity (Guest Lecturer) Oct, 2019
Lab material at: `git@github.com:jesusNPL/LargeScale.git`

Universidade Federal de Goiás: Department of Ecology
Phylogenetic Comparative Methods (Teaching Assistant) Spring 2016
Lab material at: `http://dinizfilho.wixsite.com/dinizfilholab/`

Universidad Autónoma Gabriel René Moreno: Carrera de Biología
ZOO 344: **Vertebrate Zoology** (Teaching Assistant) Spring 2003-2005, Fall 2003-2005
Six semesters

Universidad Autónoma Gabriel René Moreno: Department of Botany
Introduction of statistics (Instructor) Mar, 2012, 2013, 2014
Three intensive courses of one week each

Universidad Autónoma Gabriel René Moreno: IV Congreso Boliviano de Ecología
Species distribution modeling with R (Instructor) Jun, 2014
Three days course

DIRECTED STUDENT MENTORING:

PhD Thesis Committee:

Axel Arango García, August 2019 - August 2023. External committee member, PhD Thesis/Project: 'Effects of dispersal on the diversification of Emberizoidea (Aves, Passeriformes) in the New World'. Instituto de Ecología A.C., Xalapa, Mexico.

Felipe A. Toro Cardona, February 2023 - Present. External committee member, PhD Thesis/Project: 'Macroecological patterns and niche evolution of Hylids in America'. Universidad de Antioquia, Colombia.

Undergraduate Mentoring:

Zoe Karwowski - EEB, University of Minnesota

Past Graduate Advisees:

Marco Aurelio Pinto Viveros, February 2017 – August 2019. Master Science Thesis: 'The amphibians as a model of biological control in agricultural areas of Santa Cruz, Bolivia', Master program Manejo de Recursos Naturales y Medio Ambiente, Universidad Autónoma Gabriel René Moreno, Santa Cruz de la Sierra, Bolivia.

Past Undergraduate Advisees:

Katherine Mano Cuellar, March 2012 – July 2014. Distinction in All Subjects. *Magna Cum Laude*. Undergraduate Project. 'Effects of land use change on amphibian community composition in central Santa Cruz, Bolivia'. Carrera de Biología, Universidad Autónoma Gabriel René Moreno, Santa Cruz de la Sierra, Bolivia.

Marco Aurelio Pinto Viveros, March 2012 – December 2014. Distinction in All Subjects. *Magna Cum Laude*. Undergraduate Project: 'The herpetofauna of the Mutún region, Santa Cruz, Bolivia'. Carrera de Ciencias Ambientales, Universidad Autónoma Gabriel René Moreno, Santa Cruz de la Sierra, Bolivia.

Ronald Sosa Escalante, March 2013 – July 2016. Undergraduate Thesis: 'Estudio de la mortalidad de serpientes atropelladas en la carretera Antigua a Cochabamba, Provincia Florida, Santa Cruz, Bolivia, Carrera de Biología, Universidad Autónoma Gabriel René Moreno, Santa Cruz de la Sierra, Bolivia.

PRESENTATIONS

**Last five years*

Invited Presentation - Integrating multiple dimensions of plant biodiversity *August, 2023*
Paving the Way for Continental Scale Biology: Technology, Techniques, and Teamwork for Connecting Research Across Scales - The National Academies of Sciences, Engineering, and Medicine Webinar

Contributed Presentation - No branch left behind: tracking terrestrial biodiversity from a phylogenetic completeness perspective *August, 2023*
Ecological Society of America Annual Meeting Portland, OR

Contributed Presentation - Phylogenetic and spectral similarity predict redundancy in biodiversity-ecosystem function relationships in two long-term forest diversity experiments *(Co-author)* *August, 2023*
Ecological Society of America Annual Meeting Portland, OR

Contributed Presentation - Integrating phylogenies, forest inventories, and hyperspectral observations to map tree communities from space *(Co-author)* *August, 2023*
Ecological Society of America Annual Meeting Portland, OR

Contributed Presentation - Can we map tree diseases from space? The case of oak wilt disease *(Co-author)* *August, 2023*
Ecological Society of America Annual Meeting Portland, OR

Contributed Presentation - How spectral biology and remote sensing can inform biodiversity management and conservation *(Co-author)* *July, 2023*
Botany Annual Conference Boise, ID

Invited Presentation - Trait biogeography: the role of past distributions *Apr, 2023*
Symposium on the Biogeography of Behavior, University of Oklahoma Norman, OK

Invited Presentation - Harnessing Bird and Remote Sensing Data to Understand Biodiversity Change Over Space and Time *Jan, 2023*
Saint Paul Audubon Society Saint Paul, MN

Contributed Presentation - Mapping phylogenetic composition and diversity in temperate forests for conservation and disease detection *(Co-author)* *Dec, 2022*
AGU Annual Meeting Chicago, IL

Invited Presentation - Can we use remote sensing products to predict and monitor biodiversity? *Aug, 2022*
Panorama Actual de las Ciencias Atmosféricas y del Cambio Climático 2022 Mexico DF, Mexico

Contributed Presentation - Assessing the link between spectral diversity and functional diversity *Jul, 2022*
Annual Meeting of the Association for Tropical Biology and Conservation Cartagena, Colombia

Contributed Presentation - The role evolutionary and biogeographic imprints on plant-trait distributions and ecosystems functioning *Jun, 2022*
World Biodiversity Forum Davos, Switzerland

Invited Presentation - Macroevolutionary and ecological processes as drivers of species co-occurrences *Feb, 2022*
Ecology, Evolution and Environmental Biology Seminar Series, Columbia University New York, NY

Contributed Presentation - Plant diversity across dimensions: coupling biodiversity measures from the ground and the sky *Dec, 2021*
AGU Annual Meeting New Orleans, LA

Contributed Poster - Modeling species distributions using remote sensing data: the Eastern temperate forests of the US as a case study *Dec, 2021*
AGU Annual Meeting New Orleans, LA

Contributed Presentation - Plant hydraulics and rainfall niches: a mechanistic approach to explain species distributions across tropical biomes *(Co-author)* *Dec, 2021*
AGU Annual Meeting New Orleans, LA

Contributed Presentation - Detection of oak wilt disease from tree to landscape Scales *(Co-author)* *Dec, 2021*
AGU Annual Meeting New Orleans, LA

Invited Presentation - Predictive ecological and evolutionary science *Sep, 2021*
School of Natural and Environmental Sciences, Newcastle University (Online) Newcastle, UK

Invited Presentation - Plant community structure and detection *Jun, 2021*
Institute of Biology, Leipzig University (Online) Leipzig, Germany

Invited Presentation - Plant biodiversity: community structure, composition and detection *Jan, 2021*
Ecology, Evolution and Behavior Seminar Series, University of Minnesota (Online) St Paul, MN

Contributed Poster - Integrating biodiversity observations with airborne and satellite data to predict shifts in assemblage diversity and composition underg global change *Jan, 2021*
NSF Macrosystems Biology and NEON Enabled Science PI Meeting Online meeting

Invited Presentation - Macroecology and macroevolution in the Neotropics *Nov, 2020*
Department of Geography, Federal University of Rio Grande do Norte (Online) RGN, Brazil

Invited Presentation - Introduction to graphical models *Jan, 2020*
Evoutionary Biology Network, Institute of Ecology Xalapa, Mexico

Contributed Presentation - The role of ecology and evolution on the assembly and species co-occurrence at different spatial and temporal scales *Sep, 2019*
Grand Challenges in Biology Symposium, University of Minnesota St Paul, MN

Contributed Poster - Testing Darwin's naturalization conundrum based on taxonomic, phylogenetic and functional dimensions of vascular plant diversity *Aug, 2019*
Ecological Society of America Annual Meeting Louisville, KY

Invited Presentation - Wildlife management and indigenous people in Bolivian lowlands *Apr, 2019*
Mano a Mano International Partners St Paul, MN

Contributed Presentation - Integrated Global Biodiversity Detection: Plant Spectra, Phylogenetics, and Enhanced Species Distribution Models *(Co-author)* *Dec, 2018*
AGU Annual Meeting Washington DC

Invited Presentation - Evolutionary macroecology *Dec, 2018*
Museo de Historia Natural Noel Kempff Mercado Santa Cruz, Bolivia

SYMPOSIA AND WORKSHOPS ORGANIZED

Round table on Diversity in Biodiversity Science (Organization committee) Oct, 2020
Biodiversity Research Coordination Network (RCN) *Online meeting*

X Bolivian Congress of Ornithology (Scientific committee) Oct, 2019
Asociación Boliviana de Ornitología and Universidad San Francisco Xavier *Sucre, Bolivia*

IV Bolivian Congress of Ecology (Vice-president and Scientific committee) Jun, 2014
Asociación Boliviana de Ecología *Santa Cruz, Bolivia*

Climate Change and Water Use (Organization committee) Oct, 2010
ADAPCLIM conference *Asunción, Paraguay*

First Encounter on Knowledge and Management of the Pantanan and Chiquitania in the context of the Paraguay River Basin (Organization committee) Jun, 2010

SERVICE AND OUTREACH ACTIVITIES

SERVICE AS EDITOR:

1. Subject-Matter Editor — **Ecological Monographs** (The Ecological Society of America)

2. Editorial Board — **Kempffiana** (Museo de Historia Natural Noel Kempff Mercado)

3. Subject-Matter Editor - special issue: *Applications of spectral biology and remote sensing for deciphering the causes and consequences of plant biodiversity across scales* — **Ecology** (The Ecological Society of America)

4. Guest Associate Editor in Models in Ecology and Evolution — **Frontiers in Ecology and Evolution**

SERVICE AS REVIEWER:

Web of Science ResearcherID: E-7984-2014

I served as a reviewer panelist for the **US National Science Foundation** in February 2022. In 2020, I served as an expert reviewer for the 2020 Red List of birds (eastern South America). I am also a Spanish-language reviewer for **The American Naturalist**. The aim is helping The American Naturalist to expand the communications reach of the world-class science that nonnative English speakers produce.

I have served as a reviewer in areas of macroecology and macroevolution, biogeography, theoretical ecology, community ecology, and ecological modeling in journals, including:

Nature
Ecology(7)
Frontiers in Ecology and the Environment
Ecological Monographs(2)
Philosophical Transactions of the Royal Society B
Ecology Letters
Journal of Biogeography(12)
Global Ecology and Biogeography(11)
Diversity and Distributions(3)
Journal of Aninal Ecology(2)
Journal of Ecology(4)
Methods in Ecology and Evolution(2)
Ecology and Evolution(2)
Journal of Field Ornithology(2)
EMU (Australian Journal of Ornithology)(2)
Kempffiana
Oecología Australis
El Hornero (Ornitología Neotropical)
Communications Biology
Ecography
Biological Conservation
PNAS(3)
The American Naturalist(2)
Systematic Biology(3)
Nature Communications(3)
New Phytologist(8)
Oikos
Molecular Biology and Evolution
Biological Journal of the Linnean Society(2)
Remote Sensing in Ecology and Conservation(3)
Biotropica(3)
Annals of Botany
Journal of Vegetation Science(2)
Journal of Plant Ecology
Prespectives in Ecology and Conservation(2)
Journal of Zoolog. Syst. Evol. Research
Biodiversity and Conservation(2)
Forest Ecology and Management(2)
NPJ Biodiversity(2)
Plos One
PeerJ

NATIONAL AND INTERNATIONAL SERVICE ACTIVITIES:

1. **Official Bolivian member** for the Society of Wetlands Scientists, South American Chapter.

2. **Research Advisor in Ecology and Natural Resources**: National Academy of Sciences of Bolivia, Santa Cruz Chapter (*Scientia Crucensis*).

OUTREACH:

While working at the Noel Kempff Mercado Natural History Museum in Santa Cruz de la Sierra, I participated in outreach activities with visitors. I participated in guided visits from elementary and high school students and to the ornithological collection at the Museum, where we explored the role of scientific collections in science and society and how we learn about and document biodiversity.

As a postdoctoral fellow at the university of Minnesota, I have been participating in different science outreach programs. One of the programs involves bringing elementary school students (usually 5th and 6th graders) to the University of Minnesota. I lead part of the biodiversity sessions, in which the students can see and manipulate different plant species in the greenhouse and learn about the role of environmental conditions in species diversity, function and adaptations. I have also participated in the Market Science, which aims to connect people with science. In Market Science we created hand-one science activities for children in Farmer's markets.

More recently, I have co-organized an online round-table entitled **Diversifying Biodiversity Science** under the umbrella of the RCN: Cross-Scale Processes Impacting Biodiversity collaborative project, in which several panelist were invited to talk about their experiences regarding the inequalities in biodiversity science and how they are working to make our work more inclusive. Link to the round-table video on YouTube `https://www.youtube.com/watch?v=CYlt3bMIsEs&t=296s`

Moreover, I gave a public talk at "Mano a Mano" International Partners (April 2019, `https://manoamano.org`) on wildlife management and indigenous people in Bolivian lowlands. In this talk, I highlighted the importance of working with local communities in order to preserve the natural capital.

SKILLS

Languages	First language: Spanish (speaking, reading, and advanced writing) Proficient: English, Portuguese (speaking, reading, and writting) Familiar with: Guaraní, Quechua
Computer Programming	Advanced: R, Markdown Intermediate: LaTeX, Stan, Git, RevBayes, Matlab, ArcGis Familiar with: Julia, Python, C++, Bash, Envi

EXPERIENCE WITH SCIENTIFIC COLLECTIONS AND CURATION

Museo de Historia Natural Noel Kempff Mercado, Santa Cruz de la Sierra, Bolivia

1. **Assistant curator**: identification, preparation and maintenance of bird specimens collected in the field (2009 – 2014).

2. **Coordinator**: development of the Geospatial Centre for Biodiversity in Bolivia—for the vertebrate collection at the Museum in collaboration with a team of taxonomists. `http://www.museonoelkempff.org/cgb/`. (2011 – 2013).

3. **Field coordinator of biological inventories** in National Protected Areas of Bolivia, including Ríos Blanco y Negro Wildlife Reserve (2009), Otuquis National Park (2011, 2013).
